PROFILE

Recent Electronics and Communication Engineering graduate with a passion for coding. Skilled in frontend development and currently learning backend technologies. Experienced in building responsive, high-performance web applications with an interest in APIs. Seeking full-time frontend roles while open to freelance projects.

PROJECTS

Responsive E-Commerce Website

Description: Designed and developed a fully responsive e-commerce website, ensuring optimal performance across mobile, tablet, and desktop devices.

Weather App

Description: Built a dynamic weather app with real-time data integration, featuring location-based forecasts and an intuitive, responsive user interface.

React Currency Converter

Description: A React Currency Converter that provides real-time currency conversion using live exchange rates. It features a responsive UI with instant conversion results.

React E-commerce Website

Description: A fully responsive e-commerce website built with React, offering seamless shopping experiences with dynamic product listings, cart management, and a search option.
